

Making the Most of My 2,000,000 Minutes

From the time a student graduates eighth grade through the day of their high school graduation, they will have experienced approximately two million minutes of their lives. How the students choose to fill those precious minutes determine much of their future success. It is our goal in the Freshman Academy to ensure that each student makes the most of their two million minutes while enrolled over the next four years. Each team of teachers in the Freshman Academy has recognition buttons that will be given to students who are exemplifying the motto “Making the Most of My 2,000,000 Minutes.” Reminders throughout the year will count the minutes that have passed and inquire as to whether the students are, indeed, making the most of their two million minutes as Steelmen at Joliet Central High School.
