AP Statistics Math 128 Dual Credit Enrollment Checklist

Prerequisites:

☐ Students must be in good academic standing. Students who have taken a JJC class prior to this time and have received a "D" or an "F" are not eligible to enroll in district dual credit classes.

☐ It is strongly suggested that students meet with their high school counselor to discuss 2018-2019 schedule and review NCAA eligibility and transfer credit options where applicable.

☐ Successfully complete either Geometry or Honors Geometry with a "C" or better for both semesters.

☐ Students must meet JJC ALEKS test requirements or provide an ACT score or 22 or greater.

☐ If you are currently enrolled in Math 142 and are successfully completing the course, simply submit the approval form with a line at the top stating *Currently enrolled in Math 142*

Requirements:

☐ Attend a Dual Credit meeting

☐ Complete and sign Academic Dual Credit Student Approval Form; submit to counselor.

☐ Apply to JJC online; submit printed completed application to counselor.

☐ Take ALEKS test (free); submit copy of results to counselor.

All forms must be submitted to counselors by April 3rd.
