# INSTRUCTIONS/REQUIREMENTS: For School Districts/Joint Agreements

All School Districts/Joint Agreements must complete this form (Note: joint agreement supplementary/statistical schedules may not be applicable)
This form complies with Part 100 (Requirements for Accounting, Budgeting, Financial Reporting, and Auditing).

23. Illinois Administrative Code 100. Subtitle A. Chapter I. Subchapter C (Part 100)

- 1. Round all amounts to the nearest dollar. Do not enter cents. (Exception: 9 Month ADA on page 27, line 78)
- 2. Any errors left unresolved by the Audit Checklist/Balancing Schedule must be explained in the itemization page.
- 3. Before submitting AFR be sure to break all links in AFR before submitting to ISBE. If links are not broken, amounts entered have changed when opening the AFR.
- 4. Submit AFR Electronically
  - The Annual Financial Reports (AFR) must be submitted directly through the Attachment Manager to the AFR Group by the Auditor (not from the school district) on before November 15 with the exception of Extension Approvals (Please see AFR Instructions for complete submission procedures). Note: CD/Disk no longer accepted.

### Attachment Manager Link

AFR supporting documentation must be embedded as Microsoft Word (.doc), Word Perfect (\*.wpd) or Adobe (\*.pdf) and inserted within tab "Opinions & Notes".
 These documents include: The Audit, Management letter, Opinion letters, Compliance letters, Financial notes etc.... For embedding instructions see
 "Opinions & Notes" tab of this form.

Note: In Windows 7 and above, files can be saved in Adobe Acrobat (\*.pdf) and embedded even if you do not have the software. If you have problems embedding the files you may attach them as separate (.docx) in the Attachment Manager and ISBE will embedded them for you.

### 5. Submit Paper Copy of AFR with Signatures

- a) The auditor must send three paper copies of the AFR form (cover through page 8 at minimum) to the School District with the auditor signature.
  - Note: School Districts and Regional Superintendents may prefer a complete paper copy in lieu of an electronic file. Please comply with their requests as neccessary,
- b) Upon receipt, the School District retains one copy for their records, signs, and forwards the remaining two copies to the Regional Superintendent's office no later than October 15. annually.
- c) Upon receipt, the Regional Superintendent's office retains one copy for their records, signs, and forwards the remaining paper copy to ISBE no later than November 15, annually.
  - If the 15th falls on a Saturday, the due date is the Friday before. If the 15th falls on a Sunday, the due date is the Monday after.
  - Yellow Book, CPE, and Peer Review requirements must be met if the Auditor issues an opinion stating "Governmental Auditing Standards" were utilized.
     <u>Federal Single Audit 2 CFR 200.500</u>
- 6. Requesting an Extension of Time must be submitted in writing via email or letter to the Regional Office of Education (at the descretion of the ROE).

  Approval may be provided up to and no later than December 15 annually. After December 15, audits are considered late and out of compliance per Illinois School Code.

### 7. Qualifications of Auditing Firm

- School District/Joint Agreement entities must verify the qualifications of the auditing firm by requesting the most current peer review report and the
  corresponding acceptance letter from the approved peer review program, for the current peer review period.
- A school district/joint agreement who engages with an auditing firm who is not licensed and qualified will be required to complete a new audit by a qualified
  auditing firm at the school district's/joint agreement's expense.

# PART D - EXPLANATION OF ACCOUNTING PRACTICES FOR LATE MANDATED CATEGORICAL PAYMENTS

(For School Districts who report on an Accrual/Modified Accrual Accounting Basis only)

School districts that report on the accrual/modified accrual basis of accounting must identify where late mandated categorical payments (Acct Codes 3100, 3120, 3500, 3510, 3950) are recorded. Depending on the accounting procedure these amounts will be used to adjust the Direct Receipts/Revenues in calculation 1 and 2 of the Financial Profile Score. In FY2020, identify those late payments recorded as Intergovermental Receivables, Other Recievables, or Deferred Revenue & Other Current Liabilities or Direct Receipts/Revenue. Payments should only be listed once.

24. Enter the date that the district used to accrue mandated categorical payments

Date 8/31/2020

25. For the listed mandated categorical (Revenue Code (3100, 3120, 3500, 3510, 3950) that were vouchered prior to June 30th, but not released until after year end as reported in ISBE FRIS system, enter the amounts that were accrued in the chart below.

## Illinois State Board of Education School Business Services Department

# **Current Year Payment on Contracts For Indirect Cost Rate Computation**

#### Instructions:

This schedule is to calculate the amount allowed on contracts obligated by the school district for the Indirect Cost Rate calculation. The greatest amount allowed in the indirect cost calculation is \$25,000 for each contract. The contracts should be only for purchase services and not for salary contracts. Please refer to the embedded attachment "Indirect Cost Plan" that explains which contracts should be entered on this schedule. Found under "Sub-agreement for Services" starting on page 12.

Please only include applicable contracts with Fund-Function-Objects found on the embedded attachment - "Fund-Function-Object Chart."

\*Do not include contracts for Capital Outlay (500) or Non-Capitalized Equipment (700) on this form, they are excluded from the Indirect Cost Rate calucation.

- 1. In column (A) enter the name of the Fund-Function-Object of the account where the payment was made on each contract in the current year.
- 2. In column (B) enter the number of the Fund-Functon-Object of the account where the payment was made on each contract for the current year. Do not enter hyphens. Ex) Enter as 101000600
- 3. In Column (C) enter the name of the Company that is listed on the contract.
- 4. In column (D) enter the total amount paid in the AFR for the contract. The amount must be less than or equal to the amount reported in the AFR's "Expenditures 15-22" tab.
- 5. Column (E) and (F) are calculated automatically based on the information provided in Columns (A through D).
- 5. The amount in column (E) is the amount allowed on each contract in the Indirect Cost Rate calcualation. The amount in column (F) is the amount that will be deducted from the base in the indirect cost rate (page 30) for Program Year 2022.

## **Independent Auditor's Report**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Joliet Township High School District 204 (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. The basic financial statements have been audited; however, they are not presented as part of this Annual Financial Report form. The basic financial statements should be read in conjunction with the following auditor's report. Our report read as follows:

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Joliet Township High School District 204 (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension schedules, other postemployment benefits schedules on pages 4 through 11, 60 through 61, 62 through 65, and 66 through 68, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, other schedule and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, other schedule, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2019, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The combining and individual fund financial schedules, related to the 2019 financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves. and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2019 combining and individual fund financial schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

These regulatory-based financial statements are issued to comply with regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than, and differs from, accounting principles generally accepted in the United States of America. They are intended to assure effective legislative and public oversight of school district financing and spending activities of accountable Illinois public school districts. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying regulatory-based financial statements as listed in the table of contents of this Annual Financial Report form are presented for purposes of additional analysis and are not a required part of the basic financial statements of the District. The regulatory-based financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The regulatory-based financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the regulatory-based financial statements directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the regulatory-based financial statements, except for the financial profile information, estimated financial profile summary, statistical section, estimated indirect cost rate for federal programs, report on shared services or outsourcing, administrative cost worksheet and itemization schedule, which were not audited, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the District's Board of Education, management of the District, regulatory agencies, and the Illinois State Board of Education and is not intended to be and should not be used by anyone other than these specified parties.

### 1. Summary of Significant Accounting Policies

#### Introduction

The Joliet Township High School District 204 (the "District") was established on April 4, 1899 and operates under the School Code of the State of Illinois. The District has taxing authority and provides education services for grades 9 through 12. The Board operates independent of any other public body at the local level with regard to all fiscal matters except the collection and distribution of property taxes.

The financial statements of the District are prepared in accordance with Accounting Principles Generally Accepted in the United States of America (USGAAP). USGAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

### Financial Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in the reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is a legally separate organization for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause their reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the District. The District also may be financially accountable if an organization is fiscally dependent on the District, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government or (3) a jointly appointed board. There are no component units, as defined by GASB. which are included in the District's reporting entity. Even though there are local government agencies within the geographic area served by the District, such as the municipality, library, and park district, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them. Also, the District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

#### Basis of Presentation

# Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements include governmental activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and nonexchange revenue.

Notes to Basic Financial Statements June 30, 2020

# 1. Summary of Significant Accounting Policies

#### Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures. The District's funds are organized into two major categories: governmental and fiduciary. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District (General Fund) or meets the following criteria:

Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues, or expenditures of that individual governmental fund are at least 10 percent of the corresponding total for all governmental funds.

In addition to funds that meet the major fund criteria, any other governmental fund that the District's officials believe is particularly important to financial statement users (for example, because of public interest or consistency) may be reported as a major fund.

#### Governmental Funds

Governmental funds are those through which most governmental functions of the District are financed. The District's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The focus of governmental fund financial statements is on major funds rather than reporting on funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

### Major Governmental Funds

The following are the District's major governmental funds:

<u>General Fund</u> – The General fund is the general operating fund of the District. It is used to account for and report all financial resources not accounted for and reported in another fund. The General fund consists of the following:

**Educational Account** – This account is used for most of the instructional and administrative aspects of the District's operations. The revenue consists primarily of local property taxes and state and federal governmental aid.

<u>Operations and Maintenance Account</u> – This account is used for expenditures made for repair and maintenance of District property. Revenue consists primarily of local property taxes.

Notes to Basic Financial Statements June 30, 2020

# 1. Summary of Significant Accounting Policies

<u>Working Cash Account</u> – This account maintains financial resources held by the District to be used as temporary interfund loans for working capital requirements to other accounts of the General Fund and the Transportation Fund. Money loaned by the Working Cash Account to other accounts/funds must be repaid within one year. As allowed by the School Code of Illinois, this account may be permanently abolished and become a part of the Educational Account within the General Fund.

<u>Tort Immunity Account</u> – This account is used to report costs for the District's risk financing activities. Revenue consists primarily of local property taxes.

<u>Special Revenue Funds</u> – Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Each of the District's Special Revenue Funds has been established as a separate fund in accordance with the fund structure required by the State of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes.

The following is the District's major special revenue fund:

<u>Transportation Fund</u> – This fund accounts for all revenue and expenditures made for student transportation. Revenues of the Transportation Fund include property taxes, state transportation grants, user charges, and interest income.

<u>Debt Service Funds</u> – Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal, interest, and related costs.

The following is a major debt service fund:

<u>Debt Service Fund</u> – This fund accounts for the periodic principal and interest payments on the bond issues and other debt of the District. The primary revenue source is local property taxes levied specifically for debt service.

<u>Capital Projects Funds</u> – Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The following is a major capital projects fund:

<u>Capital Projects Fund</u> – This fund is used to account for school construction projects financed through debt issues, government grants, and developer contributions.

Nonmajor Governmental Funds

The following are the nonmajor special revenue funds:

**Social Security Fund** — This fund accounts for the District's payments to Medicare for certified employees and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes.

Notes to Basic Financial Statements June 30, 2020

### 1. Summary of Significant Accounting Policies

<u>Municipal Retirement Fund</u> — This fund accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund. Revenue to finance the contributions is derived primarily from local property taxes.

Fiduciary Funds (Not Included in Government-Wide Statements)

Fiduciary Funds (Trust and Agency Funds) are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds. The District's Fiduciary Funds utilize the same measurement focus and basis of accounting as the Governmental Activities discussed above.

Agency Funds - The Agency Funds include Student Activity Funds and Convenience Accounts. These funds are custodial in nature and do not involve the measurement of results of operations. Although the Board of Education has the ultimate responsibility for Activity Funds, they are not District funds. Student Activity Funds account for assets held by the District which are owned, operated, and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational, or cultural process. Convenience Accounts account for assets that are normally maintained by a local education agency as a convenience for its faculty, staff, etc.

### Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### Measurement Focus

The government-wide Statement of Net Position and Statement of Activities utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), and financial position. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or noncurrent) associated with their activities are reported.

In the fund financial statements, the "current financial resources" measurement or the "economic resources" measurement is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets, liabilities, and deferred inflows of resources are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. Agency funds are not involved in the measurement of results of operations, therefore, measurement focus is not applicable to them.

### 1. Summary of Significant Accounting Policies

Basis of Accounting

Government-Wide Financial Statements

In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. This differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between expenses and program revenues for each governmental program. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District.

Eliminations have been made in the statement of net position to remove the "grossing-up" effect on assets and liabilities within the governmental activities column for amounts reported in the individual funds as interfund receivables and payables. Similarly, operating transfers between funds have been eliminated in the statement of activities.

Fund Financial Statements

#### Governmental Funds

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period (usually within 60 days). Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

In applying the susceptible-to-accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidelines. Monies that are virtually unrestricted as to purpose of expenditure, which are usually revocable only for failure to comply with prescribed compliance requirements, are reflected as revenues at the time of receipt or earlier if the susceptible-to-accrual criteria are met.

Shared revenues remitted from the State of Illinois, such as replacement tax, are accrued applying the susceptible-to-accrual concept based upon the month they were collected by the State.

Notes to Basic Financial Statements June 30, 2020

### 1. Summary of Significant Accounting Policies

Charges for services and miscellaneous revenues (except for investment earnings) are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Revenues from Federal and State grants and similar programs are recognized when the District has met all eligibility requirements to establish its right to the revenue. Usually, this is at the time an expenditure has been incurred for an authorized purpose.

#### Deposits and Investments

State statute authorizes the District to invest in obligations of the U.S. Treasury, certain highly rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at fair value, which is the market value as determined by published reports of such values.

#### Interfund Transactions

The District has the following types of interfund transactions:

<u>Loans</u> – Amounts provided with a requirement for repayment. Interfund loans are reported as internal receivables in lender funds and internal payables in borrower funds.

<u>Reimbursements</u> – Repayments from the funds responsible for particular expenditures to the funds that initially paid for them. Reimbursements are reported as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

<u>Transfers</u> – Flows of assets (typically cash) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

### Property Tax Revenues

The District must file its tax levy ordinance by the last Tuesday in December of each year. The District's 2019 levy ordinance was approved during the December 17, 2019 meeting of the Board of Education. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year. The District has statutory tax rate limit in various operating funds subject to change only by approval of the voters of the District. Also, the District is subject to the Property Tax Extension Limitation Act, which, in general, limits the amount of taxes to be extended to the lesser of 5% or the percentage increase in the consumer price index for the year preceding the levy. Certain bond issue levies and referendum increases are exempt from this limitation.

Property taxes are collected by the Will County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two installments: the first due on or about June 1 and the second due on or about September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

Notes to Basic Financial Statements June 30, 2020

## 1. Summary of Significant Accounting Policies

Property taxes receivable consist of the 2019 property tax levy net of estimated uncollectible amounts approximating 1% and reduced by collections received during the fiscal year. In its governmental fund types, the District will record as deferred revenue the greater of one-half of the 2019 levy or the net uncollected portion remaining 60 days after the fiscal year end. Under this method, the District will recognize approximately one half of the 2018 levy and one half of the 2019 levy in the current fiscal year. The same method is used for budgetary purposes.

### Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement Fund, with the balance allocated to the remaining funds at the discretion of the District.

### Inventories and Prepaid Items

Materials, supplies, and food commodities are carried in an inventory account using the first-in first-out (FIFO) method and are subsequently charged to expenditures when consumed. Prepaid expenditures, principally unexpired insurance, are recorded at cost and amortized over the term of the underlying agreements. Reported inventories and prepaid items are equally offset by a nonspendable fund balance which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

#### Capital Assets

Capital assets are stated on the basis of historical cost (estimated for certain items based on an appraisal performed as of November 15, 1999). Assets acquired through gifts or donations are recorded at their estimated acquisition value at the time they are received. The District has established a capitalization threshold of \$5.000.

### Depreciation of Capital Assets

Depreciation has been provided over the estimated useful lives of the assets using the straight-line method. The estimated useful lives are shown below:

| Buildings                         | 50 Years      |
|-----------------------------------|---------------|
| Improvements Other Than Buildings | 20 Years      |
| Other Equipment                   | 5 to 10 Years |
| Transportation Equipment          | 5 to 8 Years  |
| Food Service Equipment            | 5 to 15 Years |
| Intangible Assets                 | 5 Years       |

#### Compensated Absences

All certified employees receive a specified number of sick days per year depending on the years of service, in accordance with the agreement between the Board of Education and the American Federation of Teachers Local 604. There is no limit on accumulated sick leave days. Upon retirement, a tier I certified employee may apply up to 340 days of unused sick leave toward service credit for the Teachers' Retirement System of the state of Illinois.

Notes to Basic Financial Statements June 30, 2020

### 1. Summary of Significant Accounting Policies

A tier II certified employee may apply up to 170 days of unused sick leave toward service credit for the Teachers' Retirement System. The employee is reimbursed for all unused sick days at a rate of \$25 per day to a maximum 225 days for any days that are not applied toward service credit.

Educational support personnel receive 10 to 17 sick days per year that accumulate to a maximum of 80 to 340 days. The District does not reimburse employees for unused sick days remaining upon termination of employment. Upon retirement, however, employees are reimbursed for accumulated sick days at the rate of \$6 to \$50 per day to a maximum of 70 to 340 days. The accrual for compensated absences includes all salary-related payments.

Special Tax Levy - Special Education

Cash receipts and the related cash disbursements of this restricted tax levy are accounted for in the Educational Account of the General Fund. All cumulative cash receipts have been disbursed as of June 30, 2020, therefore, there is currently no portion of this fund's equity which is restricted for future special education disbursements in accordance with 105 ILCS 5/17-2.2a of the *Illinois Compiled Statutes*.

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and Teachers Retirement System (TRS) and additions to/deductions from IMRF's and TRS's fiduciary net position have been determined on the same basis as they are reported by IMRF and TRS, respectively. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the District's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Teachers' Health Insurance Security Fund (THIS Fund) and additions to/deductions from the THIS Fund's fiduciary net position have been determined on the same basis as they are reported by the THIS Fund. For this purpose, the THIS Fund recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

#### Fund Balance/Net Position

The District's fund balances are required to be reported using five separate classifications as listed below. The District may not necessarily utilize each classification in a given fiscal year.

Nonspendable Fund Balance - Includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact.

Notes to Basic Financial Statements June 30, 2020

### 1. Summary of Significant Accounting Policies

Restricted Fund Balance - Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions or enabling legislation).

Committed Fund Balance - Amounts that can only be used for specific purposes because of a formal action (resolution) by the District's highest level of decision-making authority, the Board of Education.

Assigned Fund Balance - Amounts that are constrained by the District's intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the Board of Education or the Assistant Superintendent for Business and Personnel. With the exception of the General Fund, assigned fund balance is the residual fund balance classification for all governmental funds with positive balances. Interest earnings assigned to a specific fund does not preclude the Board of Education from subsequently transferring interest earnings as allowed by 105 ILCS 5/10-22.44.

Unassigned Fund Balance - This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District's unassigned fund balance of the General Fund will be maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The unassigned fund balance of the General Fund may only be appropriated by resolution of the Board of Education. Note 11 provides details of fund balances.

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition/construction of those assets. Net position is reported as restricted when constraints placed on its use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

#### Use of Resources Policy

The District considers restricted amounts to have been spent first when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. Committed, assigned, and unassigned amounts are considered to have been spent in that order when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used. Expenditures incurred for a specifically identified purpose will reduce the specific identified classification of fund balance.

### Comparative Data

Comparative totals for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations.

Notes to Basic Financial Statements June 30, 2020

### 1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

### 2. Stewardship, Compliance and Accountability

Budgetary Data

Budgeted amounts for the governmental funds are adopted on the modified accrual basis, which is consistent with accounting principles generally accepted in the United States of America. Budgets were adopted for all governmental funds. For each fund, total fund expenditures may not legally exceed the budgeted amounts. The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1st. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to September 30th, the budget is legally adopted through passage of an ordinance. By the last Tuesday in December, a tax levy ordinance is filed with the county clerk to obtain tax revenues.
- 4. Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education, after following the public hearing process mandated by law. There were no supplemental appropriations during the year.
- 5. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
- 6. All budget appropriations lapse at the end of the fiscal year.
- 7. The original budget was approved September 17, 2019. The original budget was not modified during the year.

Notes to Basic Financial Statements June 30, 2020

### 2. Stewardship, Compliance and Accountability

Excess of Expenditures Over Budget

Expenditures of the Capital Projects Fund, Debt Service Fund and Education Fund exceeded budgeted expenditures by \$875,221, \$974,764, and \$7,862,113, respectively for the fiscal year ended June 30, 2020.

#### 3. Cash and Investments

#### Common Bank Account

Separate bank accounts are not maintained for all District funds; instead, the individual funds maintain their cash balances in the common checking account, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund. Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures that have been approved by the Board of Education.

#### Deposits

Cash deposits consisted of checking accounts and certificates of deposit, which were carried at cost. At year end, the carrying amount of the District's deposits was \$53,392,560; the bank balance was \$52,916,380. Included in these amounts, are \$37,047,569 in certificates of deposit that are presented as investments in the Statement of Net Position and the Statement of Fiduciary Assets and Liabilities.

Custodial Credit Risk - This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires that all deposits be fully collateralized. As of year-end, all of the District's bank balance was fully collateralized.

#### Investments

Concentration of Credit Risk - The District places no limit on the amount it may invest in any one issuer.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an external investment pool created by the Illinois General Assembly. The ISDLAF+ invests in U.S. Treasury bills and notes, in fully collateralized time deposits in Illinois financial institutions, in collateralized repurchase agreements, and in treasury mutual funds that invest in U.S. Treasury obligations and collateralized repurchased agreements. The fair value of the position in the ISDLAF+ is the same as the value of the pool shares. The Illinois State Treasurer's Investment Advisory Board has oversight responsibility over the Illinois Liquid Asset Fund. The District also invests in the ISDLAF's Term Series pools. Each Term Series pool is comprised of statute allowable investments including bank deposit products, government securities, and municipal securities each having a designated maturity between 30 and 365 days.

Interest Rate Risk - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Notes to Basic Financial Statements June 30, 2020

#### 3. Cash and Investments

Credit Risk - The District is allowed to invest in securities as authorized by Sections 2 and 6 of the Public Funds Investment Act (30 ILCS 235); and 105 ILCS 5/8-7 of the School Code. The District's investment policy does not further limit its investment choices.

Fair Value Measurement - Investments are measured at fair value on a recurring basis. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Federal Home Loan Bank investments are valued using level 2 inputs and U.S. Treasury Notes are valued using level 1 inputs. The ISDLAF investments are not subject to fair value reporting.

The following schedule reports the fair values and maturities (using the specific identification method) for the District's investments at June 30, 2020. The schedule also includes credit ratings for the District's investments in debt securities as described by Standard & Poor at June 30, 2020:

2010B Series Bonds

The 2010B Series Bonds are Taxable General Obligation Limited School Bonds dated April 15, 2010 for \$15,750,000 for the purpose of increasing the working cash account to finance capital projects. These bonds are payable beginning January 1, 2024 through January 1, 2030, with interest payable July 1st and January 1st at varying rates of 5.580% to 6.204%. The Bonds were issued as Build America Bonds (Direct Payment) as authorized under the American Recovery and Reinvestment Act of 2009. This Build America Bond program provides for a Federal subsidy through a refundable tax credit to be paid to the District by the U.S. Department of the Treasury in an amount equal to 35% of the total interest payable on the taxable bonds. On October 31, 2019, the outstanding balance of \$15,750,000 was advance refunded by the 2019 Series Bonds and were called on January 1, 2020.

#### 2011A Series Bonds

The 2011A Series Bonds are General Obligation Limited School Bonds dated February 25, 2011 for \$11,070,000 for the purpose of increasing the working cash account to finance capital projects. These bonds are payable in varying amounts beginning January 1, 2023 until January 1, 2031 with interest rates that vary from 5.00% to 6.25%.

#### 2012A Series Bonds

The 2012A Series Bonds are General Obligation Limited School Bonds dated February 14, 2012 for \$6,770,000 for the purpose of increasing the working cash account to finance capital projects. These bonds are payable in two installments; January 1, 2031 in the amount of \$1,270,000 at 3.35% and January 1, 2032 in the amount of \$5,500,000 at 3.75%.

#### 2013A Series Bonds

The 2013A Series Bonds are General Obligation Limited Tax School Bonds dated November 6, 2013 for \$9,830,000 for the purpose of refunding \$6,120,000 of the outstanding Series 2004 bonds, and to increase the working cash account for \$3,490,000 and pay costs associated with the issuance of the bonds. These bonds are payable in varying amounts beginning January 1, 2014 until January 1, 2029 with interest payable semi-annually at rates that vary from 1.00% to 4.00%.

### 2014 Series Bonds

The 2014 Series Bonds are Taxable General Obligation Limited Tax School Bonds dated March 19, 2014 for \$9,720,000 for the purpose of increasing the working cash account and to pay costs associated with the issuance of the bonds. These bonds are payable in varying amounts beginning January 1, 2015 and resuming January 1, 2030 through January 1, 2034 with interest rates that vary from 1.00% to 4.25%.

#### 2015 Series Bonds

The 2015 Series Bonds are General Obligation Limited Tax School Bonds dated March 17, 2015 for \$14,790,000 for the purpose of increasing the working cash account and to pay costs associated with the issuance of the bonds. These bonds are payable in varying amounts beginning January 1, 2016 and resuming January 1, 2018 through January 1, 2035 with interest rates that vary from 3.00% to 5.00%.

### 5. Long-Term Liabilities

#### 2017A Series Bonds

On April 4, 2017, The District issued 2017A Series Bonds in the amount of \$7,200,000. These bonds were issued to advance refund \$7,215,000 of 2007B Series Bonds and \$10,265,000 of 2007C Series Bonds. As part of this refunding, the District also issued the 2017B Series Bonds noted in the following paragraph. These bonds are payable in annual installments beginning January 1, 2018. The interest rate is 4.00%.

#### 2017B Series Bonds

On April 4, 2017, The District issued 2017B Series Bonds in the amount of \$16,340,000. These bonds were issued to advance refund \$7,215,000 of 2007B Series Bonds and \$10,265,000 of 2007C Series Bonds. As part of this refunding, the District also issued the 2017A Series Bonds noted in the preceding paragraph. These bonds are payable in annual installments beginning January 1, 2018. The interest rates range from 4.00% to 5.00%.

#### 2019 Series Bonds

On October 31, 2019, The District issued 2019 Series Bonds in the amount of \$16,115,000. These bonds were issued to advance refund \$2,830,000 of 2008 Series Bonds and \$15,750,000 of 2010B Series Bonds. These bonds are payable in annual installments beginning January 1, 2021. The interest rate is 4.00%. The bond refunding reduces the District's total debt service payments by \$2,977,130 over the next ten years, which has a net present value of \$2,590,132.

In addition to the unamortized premiums, the District is also amortizing a deferred amount on refunding of previous debt issues. The District amortized \$14,381 of the deferred amount on refunding during the current year leaving a remaining unamortized balance of \$28,764 as of June 30, 2020, which is reported in the Statement of Net Position as a deferred outflow of resources.

### Legal Debt Margin

As of June 30, 2020, the legal debt limit of the District was \$221,321,679, based upon 6.9 percent of its 2019 equalized assessed valuation of \$3,207,560,565. The District's general obligation bonds are subject to the debt limit. The debt limit, less outstanding debt of \$79,385,759 and reduced by resources available of \$3,547,596, results in a legal debt margin of \$145,483,516 as of June 30, 2020.

#### Compensated Absences

Compensated Absences represent vested accumulated vacation and sick pay at June 30, 2020, which will be paid as future salaries. The General Fund has typically been used to liquidate this liability. The District estimates \$1,963,189 will be paid out within one year. Changes for the year ended June 30, 2020 are as follows:

|                      | Balance      |                |               |               |

### 5. Long-Term Liabilities

### Capital Lease

During fiscal year 2018, the District entered into a capital lease to purchase computer equipment for a total of \$2,101,899. The equipment acquired under capital lease is included within the \$22,334,515 balance of Other Equipment. The lease is payable in five annual installments, the first of which was paid in fiscal year 2018. The lease does not bear interest.

Annual debt service payments required to service outstanding lease at June 30, 2018 are as follows:

| Years Ending    |      |           |    |         |               |

### Operating Leases

The District is under obligation to lease school buses and certain equipment. The District paid \$794,979 in operating lease payments during fiscal year 2020. Remaining lease obligations are as follows:

| Due in Fiscal Year | Total      |               |  |
|--------------------|------------|---------------|--|
| 2021               | \$ 493,252 |               |  |

### 6. Risk Management

The District is exposed to various risks of loss related to torts; professional liability; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect the District from such risks, the District participates in the following public entity risk pools: School Employees Loss Fund (SELF) for workers' compensation claims, and Educational School Insurance Cooperative (ESIC) for property damage, torts, professional liability, and injury claims. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that the pools will be self-sustaining through member premiums, and will reinsure through commercial companies for claims in excess of certain levels established by the pools.

Notes to Basic Financial Statements June 30, 2020

## 6. Risk Management

The District is self-insured for medical coverage that is provided to District personnel. Blue Cross/Blue Shield administers claims for a per-person, per-month fee. Expenditures are recorded as incurred in the form of direct contributions from the District to Blue Cross/Blue Shield for payment of employee health claims and administration fees.

At June 30, 2020, total estimated unpaid claims that have been incurred but not reported to the administrative agent, amounted to \$1,684,329. The estimates are developed based on reports prepared by the administrative agent. For the two years ended June 30, 2019 and June 30, 2020, changes in the liability reported in the General Fund and Transportation Fund for unpaid claims are summarized as follows:

|                                      | Claims Payable<br>Beginning of<br>Year |    | Current Year<br>Claims and<br>Changes in<br>Estimates |    | Claim<br>Payments        |    | Claims Payable<br>End of<br>Year |  |

A balance of \$1,594,132 is reported as a liability in the General Fund and a balance of \$90,197 is reported as a liability in the Transportation Fund. There were no significant reductions in insurance coverage during the year. Settled claims have not exceeded the insurance coverage in the last three years.

#### 7. Commitments and Contingencies

## Federal Grant Programs

The District receives federal funding and is subject to the Single Audit Act. A separate report has been issued under the Single Audit Act requirements dated October 15, 2020. The nature of the federal funds the District receives, which are accounted for in the General Fund and Debt Service Fund is to supplement education programs of the District and to account for Build America Bond rebates.

Federal grant programs are subject to program compliance audits by the grantor agencies. The District's compliance with applicable grant requirements may be established at some future date; however, the District believes that any noncompliance will not have a material effect on the financial statements.

#### Litigation

From time to time, the District is involved in legal and administrative proceedings with respect to employment, civil rights, property taxes, and other matters. Although the District is unable to predict the outcome of these matters, the District believes that any appropriate liabilities have been established and that the final outcome of these actions will not have a material adverse effect on the results of operations or the financial position of the District.

### 8. Employee Retirement Systems and Plans

### Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multiple-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

#### Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

At December 31, 2019, the following employees were covered by the benefit terms:

Notes to Basic Financial Statements June 30, 2020

### 8. Employee Retirement Systems and Plans

| Inactive Plan Members and Beneficiaries Currently Receiving Benefits | 342   |
|--|-------|
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits     | 314   |
| Active Plan Members  | 461   |
| Total  | 1,117 |

#### Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2019 was 7.65%. For the fiscal year ended June 30, 2020, the District contributed \$1,356,064 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

### Net Pension Liability

The District's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

# Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%.
- Salary Increases were expected to be 3.35% to 14.25%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- An IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). For non-disabled retirees, the IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, the IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, the IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

## 8. Employee Retirement Systems and Plans

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

|                         |               | Long-Term  |
|-------------------------|---------------|------------|
|                         |               | Expected   |
|                         | Target        | Real Rate  |
| Asset Class             | Percentage    | of Return  |
| Domestic Equity         | 37.00%        | 5.75%      |
| International Equity    | 18.00%        | 6.50%      |
| Fixed Income            | 28.00%        | 3.25%      |
| Real Estate             | 9.00%         | 5.20%      |
| Alternative Investments | 7.00%         | 3.60-7.60% |
| Cash Equivalents        | <u>1.00</u> % | 1.85%      |
| Total                   | 100.00%       |            |

#### Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75%, and the resulting single discount rate is 7.25%.

#### Teachers' Retirement System of the State of Illinois

### Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2019; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling 888-678-3675, option 2.

### 8. Employee Retirement Systems and Plans

#### Benefits Provided

TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different from Tier 1.

Essentially all Tier 1 retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and will be funded by bonds issued by the state of Illinois.

#### Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2019, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

#### On-Behalf Contributions to TRS

The state of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2020, state of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$32,926,200 in pension contributions from the state of Illinois.

Notes to Basic Financial Statements June 30, 2020

### 8. Employee Retirement Systems and Plans

#### 2.2 Formula Contributions

Employers contribute 0.58% of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2020, were \$232,117, and are deferred because they were paid after the June 30, 2019 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2019. Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2020, the employer pension contribution was 10.66 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2020, salaries totaling \$745,397 were paid from federal and special trust funds that required District contributions of \$79,459. These contributions are deferred because they were paid after the June 30, 2019 measurement date.

### Employer Retirement Cost Contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. Additionally, beginning with the year ended June 30, 2020, employers will make a similar contribution for salary increases over 3 percent if members are not exempted by current collective bargaining agreements or contracts.

The District is also required to make a one-time contribution to TRS for members granted salary increases over 6% if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2020, the District paid \$26,120 to TRS for employer contributions due on salaries exceeding the Governor's statutory salary and made no payments for sick leave days granted in excess of the normal annual allotment.

## 8. Employee Retirement Systems and Plans

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's Proportionate Share of the Net Pension Liability                           | \$ 4,261,095  |
|---|---------------|
| State's Proportionate Share of the Net Pension Liability Associated with the District | 303,257,475   |
| Total   | \$307,518,570 |

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2019 and 2018, the District's proportion was 0.0053%.

For the year ended June 30, 2020, the District recognized pension expense of \$32,926,200 and revenue of \$32,926,200 for support provided by the state. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

\$311,577 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

# Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation:

Salary Increases:

Varies by Amount of Service Credit

Investment Rate of Return: 7.00%, Net of Pension Plan Investment Expense, including Inflation.

In the June 30, 2019 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2018 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014. The long-term (20year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table: Long-Torm

### 8. Employee Retirement Systems and Plans

#### Discount Rate

At June 30, 2019, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2018 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2019 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6 percent) or 1-percentage-point higher (8 percent) than the current rate.

### 8. Employee Retirement Systems and Plans

## Social Security

Employees not qualifying for coverage under IMRF or TRS are considered "nonparticipating employees". These employees and those qualifying for coverage under IMRF are covered under Social Security. The District paid \$985,325 for Social Security during the year ended June 30, 2020, the total required contribution for the year.

### 9. Postemployment Benefits Other Than Pensions

### Plan Description

The District administers a single-employer defined benefit healthcare plan, the "Retiree Healthcare Benefit Program" or "the Plan". The Plan does not issue a stand-alone financial report. The Plan provides pre- and post-Medicare postretirement healthcare benefits to all employees who retired from the District and receive a pension from the District through either the IMRF or TRS plans:

IMRF and TRS have the authority to establish and amend the benefit terms to be followed by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

#### Benefits Provided

Certified and Administrative Retirees under TRS: Retirees receive a District subsidy of up to 100% per year, until age 65 towards the cost of the retirees' share of the Teachers Retirement Insurance Program ("TRIP") premium.

Non-Certified Retirees under IMRF: The District will provide medical insurance after retirement provided the retiree pays the full blended premium rate. Premium rates are set by the District. The benefit terms provide for the collection of the retirees' healthcare premiums at the District's current premium rates. The District's current premium rates are assumed to be lower than the per capita healthcare cost for the retirees thereby creating an implicit healthcare rate subsidy.

#### Employees Covered by Benefit Terms

At June 30, 2020, the following employees were covered by the benefit terms:

| Inactive Plan Members Currently Receiving Benefits | 45  |
|--|-----|
| Active Plan Members                                | 653 |
| Total  | 698 |

### 9. Postemployment Benefits Other Than Pensions

Eligibility

The eligibility requirements for benefits are:

- IMRF participants are eligible at age 55 with 8 years of service for reduced benefits and at age 60 with 8 years of service or age 55 with 35 years of service for unreduced benefits if hired before January 1, 2011; age 62 with 8 years of service for reduced benefits and at age 67 with 10 years of service or age 62 with 35 years of service for unreduced benefits is hired on or after January 1, 2011.
- TRS participants are eligible for normal retirement at age 60 with 10 years of service or age 62 with 5 years of service if hired before January 1, 2011; age 67 with 10 years of service if hired on or after January 1, 2011. Total OPEB Liability

The District's total OPEB liability of \$10,091,795 was measured as of June 30, 2020 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method:

Entry Age Normal

Wage Inflation:

3.50%.

Retirement Age:

Experience-based table of rates that are specific to the type of

eligibility condition.

Healthcare Trend Rates:

The trend rate in the first year, 7.00% effective July 1, 2018, is based on actual premium increases. Beginning July 1, 2019,

7.00% per year graded down to 4.50% per year ultimate trend in 0.25% increments.

Aging Factors:

Based on the 2013 SOA Study "Health Care Costs - From Birth

to Death"

The discount rate of 2.66% was based on the Fidelity 20-Year Municipal Bond Yield.

Mortality rates were developed as follows - Non-certified: IMRF-specific mortality rates, sex distinct, projected generationally with scale MP-2014 (projected from 2014). These rates were developed from the RP-2014 Blue Collar Mortality Table with adjustments to match current IMRF experience. Certified: RP-2014 White Collar Annuitant Mortality Table, sex distinct, projected generationally with scale MP-2014. Rates for females are further adjusted for ages 50-77 by 76% and ages 78-114 by 106%. Rates for males are further adjusted for ages 78-114 by 115%.

### Teacher Health Insurance Security Fund

The District participates in the Teacher Health Insurance Security (THIS) Fund of the state of Illinois (also known as the Teachers Retirement Insurance Program "TRIP"), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued publicly available financial report that can be obtained at https://www.auditor.illinois.gov/Audit-Reports/Compliance-Agency-List/CMS/THISF/FY19-CMS-THISF-Fin-Full.pdf.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

#### Contributions

Active members were required to contribute 1.24 percent of pay during the year ended June 30, 2020 to the THIS Fund. The District also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.92 percent during the year ended June 30, 2020. For the year ended June 30, 2020, the District paid \$368,186 to the THIS Fund, which was 100 percent of the required contribution.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On Behalf Contributions to the THIS Fund

The state of Illinois makes employer retiree health insurance contributions on behalf of the District. The District recognized \$2,641,662 of revenue and expenditures during the year.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of \$44,548,947 for its proportionate share of the collective net OPEB liability. The collective net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of June 30, 2018. The District's proportion of the collective net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2019, the District's proportion was .160958%, which was a decrease of 0.004338 from its proportion measured as of June 30, 2018 (.165296%).

For the year ended June 30, 2020, the District recognized OPEB expense of \$1,926,162. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Mortality rates for Retirement and Beneficiary Annuitants were based on RP-2014 White Collar Annuitant Mortality Table.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2017.

#### Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS Fund is financed on a pay-as-you-go basis, the long-term expected rate of return on OPEB plan investments was determined to be 0%; therefore, the discount rate used is consistent with the 20-year general obligation bond index described above. The discount rates are 3.62 percent as of June 30, 2018 and 3.13 percent as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Collective Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the collective net OPEB liability, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.13 percent) or 1-percentage-point higher (4.13 percent) than the current discount rate:
