Dear Parent/Guardian,

Joliet Township High School is currently implementing an innovative program for our student-athletes. This program will assist our team physicians/athletic trainers in evaluating and treating head injuries (e.g., concussion). In order to better manage concussions sustained by our student-athletes, we have acquired a software tool called ImPACT (Immediate Post Concussion Assessment and Cognitive Testing). ImPACT is a computerized exam utilized in many professional, collegiate, and high school sports programs across the country to successfully diagnose and manage concussions. If an athlete is believed to have suffered a head injury during competition, ImPACT is used to help determine the severity of the suspected head injury and when the injury may be fully healed.

The computerized exam is given to athletes before beginning contact sport practice or competition. This non-invasive test is set up in “video-game” type format and takes about 15-20 minutes to complete. It is simple, and actually many athletes enjoy the challenge of taking the test. Essentially, the ImPACT test is a preseason physical of the brain. It tracks information such as memory, reaction time, speed, and concentration. It, however, is not an IQ test.

If a concussion is suspected, the athlete will be required to re-take the test. Both the preseason and post-injury test data is given to a local doctor or, to help evaluate the injury. The information gathered can also be shared with your family doctor. The test data will assist these health professionals to determine when return-to-play is appropriate and safe for the injured athlete. If an injury of this nature occurs to your child, you will be promptly contacted with all the details.

I wish to stress that the ImPACT testing procedures are non-invasive, and they pose no risks to your student-athlete. We are excited to implement this program given that it provides us additional available information for managing concussion related injuries. The JTHS administration, coaching, and athletic training staffs are striving to keep your child’s health and safety at the forefront of the student athletic experience. Please return the attached page with the appropriate signatures. If you have any further questions regarding this program please feel free to contact me at 815-723-8227.

Sincerely,

Chris Olson
Director of Activities & Athletics

The mission of Joliet Township High School, a diverse and unified learning community of choice, is to empower every student to acquire and apply the attributes to compete and contribute positively to our community and global society by providing a rigorous, relevant, and innovative education in a safe, supportive, academy environment through a quality, caring, and dedicated staff working in partnership with family and community.

Joliet Township High School ensures equal educational opportunities are offered to students, regardless of race, color, national origin, age, gender, religion, disability, veteran's status, or marital status.

Consent Form

For use of the Immediate Post-Concussion Assessment and Cognitive Testing (ImPACT)

I have read the attached information. I understand its contents. I have been given an opportunity to ask questions and all questions have been answered to my satisfaction. I have had the opportunity to review the information available at ImPACT's website, and to discuss this testing with my child's private physician.

I also understand and agree that the results of the test and any additional testing may be made available to School District staff and contractors, including but not limited to coaches, trainers, physicians, school nurses, and educational or administrative personnel, subject to the Illinois School Student Records Act.

I agree to participate in the ImPACT Concussion Management Program.
